

Advanced Skin Care

Spa Innovations ensures the highest quality of Spa products offered by a licensed Aesthetician. All products used are formulated with active ingredients in higher concentration and strengths and products purchased over the counter. It is imperative to use the recommended products referred by the Aesthetician at Spa Innovations to achieve your desired results and expectation from your skin care concerns.

A minimum series of 4 or more treatments maybe recommended for best results from any Facial, Chemical Peel or Microdermabrasion. A thorough Skin analysis and consultation is done prior to each treatment to be determined by the Aesthetician the most appropriate and beneficial treatment for your skin type and condition.

**We offer 3 levels of treatments for Facials, Chemical Peel and Microdermabrasion
Excellent on all skin color and types**

Level I- Basic

Level II- Anti-Aging

Level III- Corrective and Restorative

Facials

Facials provide the best cleansing method for the health of the skin. Enjoy and relax with a 30 or 45 minutes therapeutic spa facial for your skin type and condition.

We use deep sonic technology, steam, aromatherapy and special masques to remove embedded impurities such as excess sebum, unclogged pores, rid blackheads and whiteheads. We also treat specific skin conditions. Having regular facial is a proactive prevention and cost effective way to reduce the signs of aging. Choices of Facial Treatments are *Deep Pore Cleansing, Hydration Facial Peel, Teenagers Skin Care, Hyperpigmentation, Sensitive Skin.*

Acne Treatment

We treat mild, moderate or severe type of acne. Our treatments are combined to give you effective results for inflammation, killing bacteria and miming surface oil and the reduction of future breakout

Enzymes Peels

Natural enzymes are non-Acidic and gentle for all skin types. It is used for the purpose of softening follicular blockage. They also Aid in deep cleansing of the face and helps to speed up the natural skin renewal process leaving the skin smooth and supple. Enzymes Allows better penetration and absorption of products into the skin. Excellent to use prior to any Microdermabrasion or Chemical peels

Pre and Post Treatment

For optimum results skin should be primed at home 4 to 8 week with skin products prior, to prepare the skin before any Microdermabrasion and Chemical Peel

A after care home maintenance products is critical to maximize the long term benefits of your treatments.

Derma planning

A highly effective exfoliation procedure that gently shaves the skin surface. Removing the top most layer of dead skin along with fine, Vellus hair "peach fuzz"

This triggers the cell regeneration process and results in healthier brighter skin that has a smoother look and feel. Excellent to use prior to any Facial, Microdermabrasion or Chemical Peel for better product penetration and a radiant youthful look.

Microdermabrasion

A revolutionary new restoration process that take only minutes to perform. The exfoliation of the skin results in a smoother more even appearing skin texture and tone. Microdermabrasion stimulates the production of skin cells and collagen. You will notice an immediate improvement in your skin. These desirable results will increase over the course of the treatment series. Younger, softer, clear skin will move to the surface, revealing more radiant and tighter skin underneath.

Chemical Peels

Chemical Peels are some of the simplest and most effective treatment for achieving the radiant glow. If you are looking for a dramatic "lift" to your appearance without expensive office visits chemical peels can be the secret to getting a more youthful look. Chemical Peels are most effective for speeding up the growth of new regenerated skin cells and improves the overall appearance of the skin. We offer a wide variety of peels to achieve your desired results. Levels of Chemical Peel Treatments are as follows:

Level I – Lifts surface cells and reveals a fresher and more radiant skin tone.

"Lunch Time" Peel with minimum or no side effects. Leaving the skin glowing, not flaking. Highly effective without peeling. The cement between the cells began to dissolve, thousands of cells come off the skin at the same time, but shedding is invisible to the naked eye. Skin is clearer and smoother.

Level II- Skin resurfacing removes the top layer of skin that will began slough off within 3 to or more days. Skin is smoother and younger looking, Excellent for fine lines, skin discolorations and acne.

Level III- Excellent for age spots hyperpigmentation, melisma, and wrinkles, produce more dramatic results, but also involves longer recovery time
